Tablet Mini Keyboard

Bluetooth

Part No.: 177887

Use the Tablet Mini Keyboard on your lap, at your desk or anywhere within 33 feet of your Bluetooth enabled device. The compact design combines all the features you would expect in a full-size keyboard, and it takes up 25 percent less space. The low-profile enclosure comes with crisp, responsive keys. Take advantage of the function keys for one-touch access to a variety of Mac features, such as screen brightness, volume, eject, play/pause, Mission Control and Launchpad (these features only function when used with a Mac OS).

The Tablet Mini Keyboard requires just two AAA batteries, and is equipped with an intelligent power management system that conserves battery life. When the keyboard is not in use, it will automatically power down. Once you start typing again, it turns back on. When the keyboard is not in use for an extended period of time, it is recommended that you use the on/off switch to extend battery life.

Features:

- Pairs easily with Bluetooth enabled devices — tablets, desktops and smart phones
- Scissor-key system reduces typing noise and offers precise keystroke response
- Sleek, compact design makes this keyboard ideal for small workspaces
- Function keys offer easy access to Mac features
- Lifetime Warranty
